MWPF is a fully integrated wood pellet production facility with an annual production capacity of 50,000 tons. We accept only the finest hardwood chips to produce premium residential wood pellet fuel. Our raw material is therefore not subject to the cyclical nature of the saw dust market.

MWPF's staff is made up of seasoned professionals who combine engineering, process management and logistics best practices to meet the needs of our growing customer base. We also leverage and greatly benefit from the expertise of our retail and distribution partners to bring our product to market.

Prices are subject to change
